

## ***East Broadway Theatre Company photography policy***

East Broadway recognises that publicity and pictures of young people enjoying the classes and performances on stage are necessary to promote the group. To facilitate this it is essential to use some photographs of children involved, past and present. Your permission is required on the Annual Membership Form (or any corresponding form linking to an East Broadway production/ class) , and without this, your child will not be photographed. Equally, without this, your child will need to be withdrawn from any production which is professionally filmed.

East Broadway is committed to providing a safe and enjoyable environment for young people. Implicit in this is the commitment to ensure that all publication of photographs, in any form of media, represent participants appropriately and with due respect.

All parents / guardians must ensure they have signed the consent form for the filming or photographing of East Broadway members, even if they don't wish their child to be filmed or photographed.

Any filming or professional photographs arranged by East Broadway will only be taken by a professional who has been authorised to do so or on an East Broadway only device.

If you have any concerns regarding what you consider to be intrusive or inappropriate photographs, please report the matter in confidence to East Broadway.

The information provided on the Photography permission form will be assumed to be ongoing unless you notify East Broadway differently.
